OBJECTIVE

I am a passionate Computer Engineering diploma graduate with practical internship experience in mobile application development. I enjoy learning new technologies and building useful applications. I am looking for an entry-level opportunity where I can apply my technical skills, keep improving my knowledge, and contribute positively to the organization.

KEY PROJECTS

1. Fast Food Ordering App

A mobile application developed to make food ordering simple and convenient for users. The app allows customers to browse food items, check prices, and place orders directly from their phones. It includes features like category-wise menu browsing, order selection, and a smooth user-friendly interface. This project helped me understand how real-world food delivery apps work and improved my skills in mobile app development and user experience design.

2. School Management App

A mobile application developed to make day-to-day school activities easier for students, parents, and teachers. The app allows users to check attendance, view homework and notices, and stay updated with important school information in one place. It was designed with a simple and easy-to-use interface so that users can access the required information quickly. Working on this project helped me improve my mobile app development skills and understand how digital solutions can simplify school management.

TECHNICAL SKILLS

Mobile Development:	React Native, Android SDK, Play Store Deployment
Web Development:	HTML, CSS, JavaScript
Programming Languages:	C, C++, Java, Python, JavaScript
Databases:	MySQL, Firebase
Tools & Platforms:	Git, GitHub, VS Code, Android Studio, Postman, React Libraries.
AI & Productivity Tools:	AI Tools, Prompt Engineering, Claude.ai, Google stitch.

EDUCATION

Diploma In Computer Engineering

MIT Polytechnic Rotegaon ,Vaijapur,
Chh.Sambhajinagar, Maharashtra, India
2023 – 2026

CERTIFICATIONS

- **App Development Specialization** — 3 Month Internship in React Native (Cross-Platform Mobile Development)

LANGUAGES

Marathi: Native **English:** Proficient **Hindi:** Native

INTERESTS & PASSIONS

- Mobile Technology Innovations — Passionate about mobile app advancements and improving user experiences.
- Problem Solving — I enjoy finding practical solutions to technical problems while building projects.
- Learning New Technologies — I am always interested in learning new tools, frameworks, and technologies related to software development.
- Coding & Development — Continuously improving skills through innovative personal and open-source projects.
